

ARYA WIDURA SATRIA WIBOWO HARYANTO

+6285866398075 | aryawidura5667@gmail.com | <https://www.linkedin.com/in/arya-widura-swh> | <https://aryawswh.github.io/Portfolio/>

A fresh graduate in Electrical Engineering with a strong interest in instrumentation and industrial automation. Experienced in PLC and HMI for control and safety systems, skilled in reading P&ID and wiring diagrams. Quick learner, proactive, and ready to contribute effectively in safety-critical industrial settings.

Work Experiences

PT Medco E&P Indonesia - Jakarta(On Site)

Jul 2024 - Aug 2024

Junior Instrument Engineer Internship

- Assisted in reviewing 15+ instrument datasheets and preparing Material Take-Off (MTO) documents for 30+ materials, ensuring technical accuracy and readiness for procurement and installation
- Utilized AutoCAD to read, update, and create technical drawings including P&IDs, hook-up diagrams, and instrument layouts
- Observed Alarm Management Meetings to understand alarm prioritization, nuisance alarm reduction, and operator response strategies
- Verified 10+ shutdown and interlock logic signal paths by validating 4–20 mA analog signals between transmitters and actuators using EcoStruxure Control Expert software

PT TJB Power Services - Jepara(On Site)

Jan 2024 - Feb 2024

Junior Instrument Engineer Internship

- Gained knowledge of steam power plant operations, including process flow and control systems, as well as Variable Frequency Drive (VFD) configuration on coal feeder systems to optimize feed control and its integration with DCS for automated process control
- Observed and learned calibration, verification, and documentation processes for 15+ field instruments, including level transmitters, pressure transmitters, and control valves
- Observed and learned loop checking procedures and basic troubleshooting steps on 10+ transmitters during field activities

Industrial Automation Laboratory - Purbalingga(On Site)

Aug 2024 - Dec 2024

Assistant Coordinator

- Coordinated industrial automation practicum with 5 assistants and 30+ participants
- Collaborated with assistants to develop structured, relevant learning materials for the upcoming 6-month practicum
- Delivered technical assistance in PLC-based traffic light simulation project using STEP 7 and Factory I/O, achieving 90% student completion rate

Education Level

Universitas Jenderal Soedirman - Purbalingga

Aug 2021 - May 2025

Bachelor of Electrical Engineering, 3.79/4.00

- Honors : Cumlaude
- Relevant Coursework : Instrumentation and Control Systems, Industrial Automation, Process Control, Electrical Measurement, PLC Programming
- Project : Design of Control and Safety System in Production Separator Based on PLC and HMI(2025)
- Actively participates in more than 10+ campus events, such as webinars, seminars, and skills training workshops

Organisational Experience

Himpunan Mahasiswa Teknik Elektro PLC Community - Purbalingga

Jan 2024 - Dec 2024

Community Leader

- Led a community of 200+ members in the field of PLC and industrial automation, including developing a training curriculum for 1 year
- Organized 10+ technical workshops with avg. 40+ participants, covering topics like PLC programming and industrial sensors
- Delivered practical training on industrial automation using Siemens PLC to 20+ participants, effectively bridging theoretical knowledge with industry-relevant applications

Skills, Project & Certification

- Hard Skills:** PLC, HMI Design, AutoCAD, Electrical Wiring, Troubleshooting, Instrumentation Calibration, IoT, Database
- Projects:** 4-Way Traffic Light System with Omron PLC(2023), IoT-Enabled Medicine Box with Android and Firebase(2024)
- Soft Skills:** Problem Solving, Analytical Thinking, Critical Thinking, Logical Thinking, Leadership, Teamwork, Communication
- Certification:** Basic Occupational Safety and Health (K3) - Realtech Academy(2024), Lab Assistant (6 Courses) - Electrical Eng. Dept., UNSOED(2023–2024), Chairperson of the PLC Community - Himpunan Mahasiswa Teknik Elektro(2024)
